VOL. V, NO. 188 — FRESNO, CAL., SATURDAY, MAY 7, 1892 — PRICE—FIVE CENTS

TERRIBLE TORRENTS

Create a Great Amount of Damage.

TROUBLE WITH CHICAGO'S WATER

Several Towns Inundated—Tracks Washed Away—Miles of Water.

CHICAGO, May 6.—As a result of the tremendous rains of this week there is a grave danger that the immense amount of sewage now being discharged into the lake catch crib and pollute the city's water supply, officials hope the flood may subside in time to enable them to commence pumping back into the Illinois and Michigan canal. At present the pumping works, which perform this duty, are idle, water in the canal being so high it gets into the river and it is useless to use the pumps.

The water in the river today was several inches higher than yesterday and the current so strong that the movement of vessels is dangerous.

One collision resulted today in which a sailor was killed.

Many city basements are flooded and will remain so until the river is lower to give the sewers their full capacity.

So far as the railroads are concerned the worst effects of the great storm has been overcome and traffic is being resumed, though it will be several days before business resumes its usual regularity. It is reported that from Monon to Hammond is one great lake, while in the vicinity of Joliet, Lockport and other points in northern Illinois a vast amount of damage has been done and the waters have not yet shown any signs of subsiding.

MANY INLAND SEAS.

KEOKUK, Ia., May 6.—The Mississippi has been rapidly rising the past two days. Low lands are submerged, crops ruined and farmers are taking their stock and families to high ground for protection.

Small levees along the Des Moines and Fox rivers are broken and large tracts are under water. The main levee, however, is yet safe.

Alexandria, Mo., is surrounded by water and the people are traveling about in boats. Should the rise continue much longer the disastrous flood of four years ago will be repeated.

A GREAT FLOOD.

PEORIA, Ill., May 6.—The dyke of the Hamursh drainage district, in the lower end of this city, gave way shortly after noon, and at 7 this evening had flooded a district about five miles long and two and a half miles wide. This was all reclaimed land and under cultivation. About twenty families live there and the greatest excitement prevails.

At Pekin, directly opposite, it is feared that some of those people perished in the rush of water. Rescuing parties are going out from Pekin.

The Illinois river is higher than it has been since 1884.

HIGHER THAN EVER.

GREENVILLE, Miss., May 6.—The Mississippi river tonight is higher than any previous record, and is still rising. The levees, however, are in good condition.

TERRIBLE STORM.

WASHINGTON, May 6.—A severe rain and wind storm passed over the city this afternoon, ruining several houses and prostrating trees. The steeple of Hamline church, in the northern part of the city, was blown off and crushed an adjoining building. No lives were lost, but damage to property throughout the city will reach several thousand dollars.

SOME POLITICS.

Prohibitionists Adopted a Platform—Mahone's Kicks.

BANGOR, Me., May 6.—The Prohibition state convention yesterday nominated the following ticket:

Governor, J. B. Hassey; congressman, J. H. Hersey.

The platform demands that the manufacture, importation, exportation and interstate transportation of intoxicating beverages be suppressed by state and national law, enforced by officials in harmony therewith; denounces trusts; favors limitation of ownership of land; favors a reasonable tariff, gold, silver and paper money; control of railroads, telegraphs, water and light companies by the people.

Little Rock, Ark.—The Prohibition state convention nominated Judge W. J. Nelson for governor, and gave the central committee authority to name candidates for other state offices.

Delegates to the national convention in Cincinnati were also chosen.

AN OLD KICK.

ROANOKE, Va., May 6.—The Republican state convention adjourned this morning.

A big fight was made over the question of instructing delegates for Harrison. Mahone and Langton opposed this, and a deadlock was threatened. The vote was 392 to 173.

Mahone stated that if the delegates was instructed for Harrison he would not obey instructions.

Bloodhorse Races.

SAN FRANCISCO, May 6.—Five furlongs—Iris won, Martinet second, Conde third. Time, 1.05 1-5.

One mile—Braw Scot won, Earle second, Lucinda third. Time, 1.50¼.

Six furlongs—Montona won, Monowai second, Henry T. third. Time, 1.18 3-5.

One mile — Best Hart won, King Hooker second, Reveria third. Time, 1.48 3-5.

Four and a half furlongs—Hello won, Ethel Fortune second, Panchita third. Time, 1 minute.

Should Hang.

SAN JOSE, May 6.—Charles B. Wilcox, who murdered John Combs in a saloon on March 19th by shooting him in the back without warning, and was found guilty of murder in the second degree, was sentenced to imprisonment for life this morning by Judge Lorrigan. Wilcox said he preferred to hang.

Wants an Increase.

WASHINGTON, May 6.—Senator Dolph today proposed an amendment to the Sunday civil bill appropriating $250,000 for a public building at Portland, Or., in addition to the appropriation already made, and to increase the limit of cost to $1,500,000.

Was in the Swim.

MEMPHIS, May 6.—Edwin S. Peart of Peoria, Ill., traveling with the Boynton combination, today jumped from the big big bridge across the Mississippi to the water below, a distance of eight-six feet. He was uninjured.

REPUBLICAN LEAGUE.

Organization of a Club at San Francisco.

SAN FRANCISCO, May 6.—The Republican League clubs of California met here this evening and formally organized by electing a full set of officers with Colonel W. H. Chamberlin as president. A constitution and by-laws were adopted, which are practically the same as those of the New York league.

Delegates were chosen to the National League convention at Saratoga on June 20th, as follows: Delegates-at-large, Marcus Pollasky of Fresno, Colonel Isaac Trumbo of San Francisco; First congressional district, A. G. Burnett; W. A. Mackinen; Fourth district, J. H. Mahoney, J. J. Evans; Fifth, E. F. Beat, E. S. Wolf; Sixth, W. H. Seamans, G. M. Gregory; Seventh, F. H. Short, F. W. Sanborn. The Second and Third districts will elect later.

The convention then adjourned sine die.

CONGRESSIONAL.

HOUSE.

WASHINGTON, May 6.—During the consideration of the river and harbor bill in the house committee of the whole to day Caruth threw little amusement into proceedings by offering an amendment appropriating $3000 for the improvement of the Salt river, Kentucky, alluding to the advantages the appropriation would bring to the defeated candidate for the presidency.

After some humorous comments the amendment was defeated. Then Reed saw an opportunity to stir up Holman and did so by moving to strike out the appropriation of $13,000 for completing the embankment on the south side of the Great Miami river. In a sarcastic manner he called upon Sherman, chairman of the committee on appropriations, to rise and protest against this extravagant expenditure. The gentleman from Indiana had a redeeming trait; he was so human when it came to appropriations for his own district. The great principles of economy, retrenchment and reform were no more applicable to him than to the weakest of representatives.

After some sharp remarks with Holman, Reed's motion was lost.

Whiting moved to strike out the appropriation for a ship canal connecting the waters of the great lakes and offering a substitute therefore.

Pending action the committee rose and the house took a recess until this evening.

BOWERS FOR BLOOD.

BECAUSE THE PACIFIC MAIL SNUBS SAN DIEGO

The Congressman Wants the Company's Contract Taken Away From Them.

WASHINGTON, May 6.—Representative Bowers of California appeared before the house committee on postoffices and post roads this morning to argue in favor of his resolution in investigating the Pacific Mail Steamship company in connection with its government subsidy for carrying the United States mail.

Bowers was armed with affidavits from prominent business men of southern California to show that the steamships of the Pacific Mail had refused to carry freight and passengers from San Diego to New York.

Harry J. Neale testified that he appeared at the steamship wharf at San Diego and offered to buy passage for a lady to New York. The purser said he had been instructed by the Pacific Mail Steamship company to receive no passengers from the port of San Diego for New York, and if any person went on board the steamer and insisted upon booking he should put him off at Mazatlan.

Bryant Howard of San Diego declares that so far as sixteen of the eighteen ports between Panama and San Diego are concerned the government might as well never have subsidized the Pacific Mail company at all. The company does no more now for those points as to passengers, freight or mails than it did before it made the contract.

Jacoby Brothers of Los Angeles, William A. Edwards, D. M. Hammock, the John D. Hoff Asbestos company of San Diego, and others made similar affidavits concerning the refusal of the company to receive freight or passengers for New York.

It was nearly time for adjournment when Bowers began his remarks, and he did not have time to get fairly started merely stating what he expected to show concerning the Pacific Mail's non-compliance with its government contract.

On Tuesday next Bowers will be given time in which to exhibit to the committee the methods of the steamship company.

A CHINAMAN'S RIGHTS

And Americans Must Respect Them,

ACCORDING TO DR. LEONARD

In the Name of Religion President Harrison is Denounced Roundly.

OMAHA, May 6.—Bishop Mallalieu presided at the morning session of the Methodist conference.

The first order of the day was the report of Bishop Thoburn of India on Maylasia.

The conference then requested the committee appointed the previous day to prepare resolutions upon the Chinese exclusion bill to report. Judge Lawrence submitted the report, which stated that the committee had learned that the bill had already been signed by the President, therefore it was too late to take any action until the exact wording of the bill could be ascertained.

Dr. Swindells offered a minority report, to have the question referred to the committee on the state of the church. He feared the passage of the bill would jeopardize the lives and property of missionaries in China, and wanted the matter considered as not disposed of, so the conference might be thoroughly informed as to the actual state of affairs.

The matter was finally referred to another special committee of five ministers and four laymen.

At the afternoon session Dr. Leonard denounced the President and congress, and said the Chinese had some rights here as other foreigners, notably the Irish.

Dr. Swindells said that unless action was taken the country would regard the conference as approving the bill, which is the most iniquitous measure ever passed by congress.

Dr. Edwards of Chicago denounced the act as a political measure rushed through a Democratic house, passed by our noble senators and signed by our well nigh unimpeachable President solely for political effect.

There was a universal sigh of relief when the question was temporarily disposed of by reference to the church committee.

Another Good Banker.

NEW YORK, May 6.—Charles H. Pinckham Jr., former president of the Bank of Harlem, was arrested this afternoon on an indictment charging him with misappropriating $70,000 of the funds of the bank. The discovery of the alleged defalcation was made when the consolidation of the Harlem with the Hamilton bank was put into execution. David F. Porter, Pinckhum's successor as president of the bank, said that Pinckham borrowed of the bank for himself on securities which were found to be worthless.

Wyoming Amusement.

CRAWFORD, Neb., May 6.—William Walker and Bill Jones were arrested by Marshal Morrison on a telegram from Wyoming. The two men are important witnesses to the late killing of Champion and Ray in Wyoming, and escaped from the Buffalo jail a day or so ago.

Several cattlemen arrived in Crawford today and demanded the prisoners, who asked for protection from the cattlemen. A train was sent from Chadron and the prisoners and marshal were taken there half an hour ahead of the regular train on which were several rustlers and cattlemen. Considerable excitement prevails and much feeling is shown in favor of the prisoners and against the cattlemen.

Said to Be Sick.

DENVER, May 6.—A special to the Republican from Santa Fe says that private dispatches announce that Jay Gould is quite ill, being confined to his bed in his private car at Albuquerque.

Emin Pasha Dead.

BERLIN, May 6.—The Tageblatt publishes a report from Arab sources that Emin Pasha is dead.

Professor August Wilhelm Hofman, the distinguished German chemist, is dead.

The Markets.

SAN FRANCISCO, May 6. — Wheat easy, buyer season $1.49, seller '92 $1.44 bid; barley steady, seller '92 new 99¾c; corn $1.37½; silver bars 86⅞@86¾; Mexican dollars 69@69½c.

Silver Purchase.

WASHINGTON, May 6.—Offers of silver to the treasury today were 431,000 ounce. The amount purchased was 281,000 ounces at $.3710@.3715.

TO HELP OUR HARBORS.

The Humboldt River Appropriation Agreed to.

SAN FRANCISCO, May 6.—A Washington special says the appropriation for all California harbors has been passed in committee of the whole and the appropriation for rivers will come up today or tomorrow.

Trouble has arisen between Geary and Caminetti over the effort of the latter to cut off part of the appropriation for Humboldt bay and tack it on to Sacramento and San Joaquin rivers.

Caminetti offered an amendment asking that the continuous appropriation of $1,750,000 for Humboldt, which amount is necessary under the contract system for the completion of the work, in excess of $300,00 to be set aside in the bill for this year, be divided, and that $650,000 be inserted instead. It was the committee's intention to have the remainder added to the river appropriation.

Geary was on his feet in an instant, and opened with this statement: "It has ever been that when one Californian asks for anything, there is another Californian ready to plunge a knife in his throat. The trouble with the gentleman is that he is blessed with gigantic ignorance of the subject upon which he is trying to secure legislation as well as methods of procedure."

Geary stated that if the amendment was carried the river would be benefited in no way, and would not secure that part of the appropriation cut off; further, he said, the rivers which it was intended to benefit were mainly in his own district, so that Caminetti could not claim an interest in them as for his opposition to Humboldt.

Caminetti in reply said that while it was true that the rivers were principally in Geary's district, he offered the amendment in a spirit of fair play, as these rivers carried to market a large part of California's products and passed through a populous part of the state, and their improvement was important.

The amendment, however, was lost by a vote of 84 to 52, and the Humboldt appropriation unamended was agreed to without further delay.

Into the River.

CHATTANOOGA, May 6.—One span of the Sheffield, Memphis & Charleston bridge over the Tennessee river at Florence collapsed this morning. A freight train was precipitated into the river, one brakeman killed and two seriously injured.

CHINESE EXCLUSION.

THE DOCUMENT IN THE HANDS OF OFFICIALS.

No Indication That Diplomatic Relations With China Will Cease.

WASHINGTON, May 6.—The treasury department today received from the state department a certified copy of the new Chinese exclusion act. Now instructions to collectors of customs, special agents and others whose duty it be to enforce the provisions of the law are now being prepared in the treasury department and will be issued probably tomorrow in the form of a circular letter until the new instructions are issued, and United States officials will be governed by previous instructions on the subject.

It was said at the state department this afternoon that the Chinese minister had taken no official notice of the Chinese exclusion act so far as the department is advised. This refutes the report that he had applied for passports for members of the Chinese legation, with a view to the severance of diplomatic relations with the United States.

NEW YORK, May 6.—A Washington correspondent telegraphs: "Am assured upon the highest authority that there is no likelihood that the Pekin government will sever commercial or diplomatic relations with the United States, but it is not impossible that American missionaries in China may have some of their privileges abridged and have certain petty annoyances practiced upon them."

In Good Condition.

SANTA ROSA, May 6.—The Christian Endeavor convention convened this morning. Rreports of the president, secretary and treasurer were read. A gain of 135 societies during the last year was shown. These societies represent over 5000 members. The financial condition of the union is also shown to be good.

ROYAL BAKING POWDER

The Most Wholesome, The Purest and the Strongest.

"OFFICE OF THE HEALTH OFFICER,

"LOS ANGELES, CAL., May 22, 1891.

"From analyses made by Prof. Rising, professor of chemistry of the University of California, Prof. Wenzell, professor of chemistry, California College of Pharmacy, and from further searching analyses made by Professors Thomas Rice & Son of San Francisco, Prof. Hanks and others, and by analyses which I personally have had made,

It is clearly demonstrated and proven that the Royal Baking Powder is pure and wholesome, and that it stands as far as strength and purity are concerned at the head of the baking powders of the United States.

"The Royal is composed of absolutely pure, harmless and wholesome ingredients of the highest grade and character.

B. T. ALFORD

His Official Conduct Indorsed by the Volunteer Fire Department.

TO THE PUBLIC—We, the undersigned members of the Fresno Volunteer Fire Department, desire to contradict the statements contained in a preamble and set of resolutions, published in THE FRESNO REPUBLICAN Friday morning, May 6th, 1892, signed "The Committee," which preamble and set of resolutions purported to be adopted at a regular monthly meeting of the Fresno Fire Department. We hereby publicly indorse the official conduct of Bart T. Alford as member of the City Council of Fresno in connection with the controversy concerning the Fresno Volunteer Fire Department; his acts in that connection having been sustained by the Superior Court of the county of Fresno, and we believe that his conduct was legal and right. We are not opposing his candidacy for the office of Sheriff of this county on account of any act of his in connection with the fire department, or on account of any statements he has claimed to have made in the outlying precincts or any precincts of this county, as was stated in the resolutions referred to. As a fire department we are neither using his record as City Trustee for nor against his candidacy as Sheriff. We make this statement as a matter of simple justice to Mr. Alford.

The New Water Gas

For cooking is cheaper than coal or wood. Don't buy gasoline stoves when you can get a Gas Stove for same money. You can reduce insurance. In Oakland gas is $2.50, where 1500 gas stoves are used, and coal and wood are cheaper than in Fresno. We positively guarrantee that each stove burner will not use more than 2½ cents worth per hour.

A. J. Wiener says: "I would not keep house without it; used gas for cooking when it was $4."

H. H. Mills says: We think it saves 25 per cent over coal or wood for small families, to say nothing of its other advantages."

Dr. Dunn says: "Gas is cheaper, because you have absolute control of the amount you use, with no labor, heat or dirt."

Rules governing the installation of gas stoves: Where the occupant has gas in his house or in rooms, we will set and connect your stove free of charge. Where there are no pipes in a residence or room, and gas is wanted for cooking only, the consumer will be charged one-half the actual cost of pipe work necessary from street cock to stove. Gas stoves are furnished by us to consumers at cost, and can be seen at our office, 1047 J street, near Grand Central Hotel.

PROTECTION AND LABOR ORGANIZATION.

Free traders in the ranks of labor are apt to mislead their fellows with the argument that it is the organization of labor which alone ensures to the worker better wages and more of the comforts of life in the United States than anywhere else on earth. They seem to overlook the fact that the trades union movement of England is forty to fifty years in advance of the same movement in the United States in everything except the matter of compensation for labor done. The recent shut down of the mines for the purpose of forcing up the price of coal by restricting the output, in which nearly half a million people participated as a unit, is an evidence of the power of English labor organizations to control their members. And if organization alone could control the price of labor the English workers would be the best paid labor in the world. That it is, on the contrary, among the poorest is too well known to require demonstration here.

There are two things which workingmen in the United States should always keep in mind when considering this question. Protection, by securing him the home market, makes it possible for an employer to pay good wages, and thorough, intelligent organization of the employes will require him to do it. On the other hand, no power can compel the payment of higher wages than the condition of the market will warrant. Organization might compel the closing of a factory; but protection and organization must go hand in hand to insure prosperity to both the employer and employed. England seeks to control the markets of the world for the products of her mills and factories; and she can only do so in proportion as she can undersell her competitors from other nations. In order that this may be done labor is brought down to the life-line; children are forced into the factories before they can read or write, and the mothers either go into the factories themselves or contribute to the family support by receiving factory work at their miserable homes. The workers do not live, they merely exist, and that, too, in spite of a thorough, intelligent organization of the labor forces. The wage-workers of the United States do not want this condition of affairs here, nor will they permit it. American labor knows what it is to enjoy some of the good things of life and will not be deprived of that enjoyment without making an effort to retain it. Under protection labor finds employment at remunerative wages, but under free trade the American laborer must inevitably be reduced to the condition of his less fortunate brother across the ocean. Intelligent men in the ranks of labor organizations need only to understand this question to see their path of duty in the right direction.

RUINED BY GAMBLING.

It will take something besides legislative acts to put health and life into the mining industry in those localities where it is now languishing. It must be relieved from the destroying grasp of the gamblers before it can again become an important factor in the prosperity of the sections in which it is carried on, and those who engage in it. General Clark, a prominent citizen of Carson, Nev., recently made some statements in regard to this evil and its influence upon the mining industry which show pretty plainly why there are dull times in that state. He says:

"The business of mining has degenerated into a gamble in stocks, and lying, cheating and swindling are the roads to fortune. The management reside in San Francisco and have no interest in the state. They control but do not own the mines. To 'bear' the stock they assess it, conceal valuable ores, run drifts into porphyry and flood the mine. To 'bull' the stock they make fictitious sales, exaggerate the quality and richness of the ore, 'gut' the mine and borrow to pay dividends. These unlawful and criminal practices have borne their fruit. Mines that should have lasted a century have been exhausted in a decade; profits that should have been distributed among innumerable stockholders have been concentrated in the hands of a few unscrupulous men; paralysis has fallen upon our industry; capital has fled; values have depreciated, prosperity disappeared."

There is no possible defense of gambling, whether it be in mining stocks or by other means and devices. It demoralizes, contaminates, and eventually destroys all that has to do with it. The state of Nevada is financially ruined by gambling, and it takes enough from legitimate channels in California to more than pay the running expenses of the state government. Relief from the gambling curse would be worth more to the mining industry than a free coinage act.

The new Chinese exclusion bill, as it passed and became a law, will permanently settle the Chinese question unless some very large loopholes are made in it by a decision of the supreme court. It is to be hoped that the law will stand as passed, and that the exclusion of this race, with all its demoralizing effects on Caucasian civilization, will be complete and permanent.

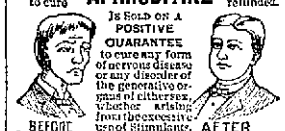

The Wisconsin Democratic state convention declared against free coinage and instructed for Cleveland. That is consistent, at any rate. They could not instruct for Cleveland and declare in favor of silver.

Judge Nourse has a good cause for action against the Examiner for the picture it printed of him in the act of seconding the nomination of Felton. The Examiner kodac fiend ought to be suppressed.

Candidates are on their mettle today, but many of them will have that tired feeling tomorrow.

A very enjoyable dance was given Wednesday evening by Mr. and Mrs. John Dwyer. Refreshments were served. The attendance was large.

Thomas Winkleman, charged with assault to commit great bodily injury, was arraigned before Judge Holmes yesterday and pleaded guilty. He was fined $15.

Persons who have arrived from Pine Ridge report that on last Wednesday the snow was a foot deep in that locality. Pine Ridge will be a good place for campers during the coming summer.

KROEGER SCHOOL DISTRICT.

Petition for Its Annexation to This City.

A petition has been presented to the county superintendent of schools, and by him to the supervisors, asking that Kroeger school district be annexed to the city of Fresno for school purposes only.

There may be considerable opposition on the part of the city people to granting the petition. It is believed that if the Kroeger district were annexed it would enjoy all the benefits of the city schools without having to pay any of the expense for their maintenance.

Some lawyers say that in the event of any bonds being voted for school purposes in this city the Kroeger people would not in any degree become responsible therefore.

An Expensive Opponent.

It is reported that Justices of the Peace Prince and Crichton have been complaining lately of the extravagant drains upon their finances caused by the recklessness of their opponent, Sam Edwards. He has actually cost them $1 a day since they first announced him as a candidate, and most of the money has been spent in entertaining voters in a hospitable way.

Fifth Ward Club.

At the regular meeting of the Fifth ward Democratic club held at J. V. Curd's warehouse, W. G. Barnum in the chair, the club was addressed by the following: E. H. Tucker, Smith, Collier, LaBlanc, J. V. Curd, Leaing, Wolford, White, Rader, Edwards.

FIGHT FOR THE SHRIEVALTY

The Sack Will be Rampant Among the Stuffed Precincts—Breckenridge's Revenge.

Boss Fahey, late of Merced, was not seen at the meeting of the Iroquois club last Thursday night. This occasioned considerable remark, but when it was known that John W. Breckenridge, son of the famous John C. Breckenridge of Kentucky, was to speak at the meeting the mystery was solved.

Fahey, when he was a citizen of Merced, which was not a very long time ago, let loose the flood of his naturally acquired billingsgate on the head of Mr. Breckenridge. The reason for Boss Fahey's dislike is not very obvious to those who are not acquainted with the secret history of the facts, but it is reported that Fahey took mortal offense because Mr. Breckenridge declined to allow Fahey to black his boots any longer. It has since been ascertained that the report was not founded on fact, but on the contrary that Fahey refused to continue blacking Mr. Breckenridge's footwear, so that either way the honors are about even.

Mr. Breckenridge has his boots polished now by an American Democratic negro, who can speak good English without the aid of an interpreter.

FAHEY ROASTED.

The salient point of the meeting was Mr. Breckenridge's speech, in the course of which he remarked that Boss Fahey had impugned his Democracy. He roasted Fahey in the most excruciatingly artistic manner. He denounced Fahey as not being either a good citizen or a good Democrat. He asserted that his ancestors were Democrats when Fahey's progenitors were several thousand miles away, learning the rudiments of the American language.

Mr. Breckenridge was loudly applauded and the only persons in the meeting who did not applaud were Billy Levison and his eighteen men whom he had borrowed from Dan Maloney of the Fifth ward and whom he had brought to the meeting to swell the enthusiasm.

Reul Terry's speech was somewhat irrelevant. Instead of showing cause why the infamous Triangle and the notorious Court House Ring should not be kicked out of the ranks of the honest Democracy of Fresno county, he made a violent, although deserved, attack on Justice Stephen J. Field for his complicity in the assassination of Judge David S. Terry by a hired bravo. As Judge Terry during his lifetime was a determined and outspoken foe of City Triangles and Court House Rings the speech of Mr. Terry was rather ill timed, but this did not occasion any remark among the candidates present, who yearned for enthusiasm and were not very particular as to its source. It was mentioned afterwards by several old time Democrats that if Judge Terry were alive he would be found on the side of the honest Democracy and against the cause espoused by his ambitious nephew.

ALFORD'S FIGHT.

The main interest centers on the fight for the shrievalty. Bart T. Alford, the Triangular candidate, has made a rattling canvass and is supported by Bosses Dan Maloney, Billy Levison, Reul Terry, G. G. Goucher and William Fahey the slinger and professor of English literature. The city has been stuffed with tramps who will vote for him and his combination today. It is reported a house was rented in Roberts precinct a few days ago in the interest of Alford, and fifteen tramps and repeaters were provided with cots therein. They are said to take their meals at Boss Fahey's hotel without money and without price, but the boss receives his pay in another quarter and therefore does not lose any of "the stuff."

Alford and his friends are putting up all sorts of combinations. In connection with this subject it is reported on reliable authority that on last Wednesday night the Triangle resolved into a Square in Boss Fahey's hotel. The Square consisted of a candidate for the assembly, a candidate of long experience for the county clerkship, a ring candidate for the district attorneyship and the Triangle candidate for the office of sheriff. It is stated that after a long palaver they agreed to make up a purse of $2500, for campaign purposes.

This money is to be used in a legal way, as it were, to pay the necessary expenses of advertising and so forth. Of course there is a good deal of meaning in the "and so forth."

Recorder Laning, who is a candidate for the district attorneyship, was very much worried when he heard the news. He belongs to about seventeen different secret societies and four or five religious orders, but he fears that fraternity and religion will not be a match for the potent influence of the sack.

Sheriff Hensley, although between two fires, is as smiling and as confident as ever. He is a laconic man and has thereby gained a reputation for great wisdom. His office, which is worth $10,000 a year in salary and perquisites for feeding prisoners, and so forth, has provided him with a snug sum, which will enable him to pay for the printing of tickets, hack hire, and so forth, but his friends say that he will not put up a nickel to buy votes after he is nominated, because he does not think much of the confounded secrecy attached to the Australian ballot system.

The two fires between which he is being slowly sizzled are G. W. Smith and Bert T. Alford. Smith is a Farmers' Alliance man as well as a Democrat, and has made a good and intelligent fight. His strength lies mainly in the anti-Triangle, anti-Periwinkle ring, while Alford and Hensley are dividing the Triangle and court house vote between them.

Smith's brother, a wealthy man from Brentwood, is here making his fight. He has lots of money to pay for hack hire, advertising "and so forth" and in a shrewd enough politician to fight the enemy with his own weapons whatever they may be. The sum up the whole matter the general impression is that the fight lies between Alford and Smith with Hensely barely saving his distance.

Most of the tickets to be voted today contain but very few names, the remaining offices being left blank. One of the most popular combinations is Smith for sheriff, Guard for tax collector, Williams for clerk, Nelson for treasurer, Bramlet for auditor, Bedford for surveyor and Brown for coroner.

The anti-Triangle fire department will show their dislike of Alford by voting for Smith, while the de facto fire department will vote and work for Alford, their friend.

'Tis a pretty quarrel as it stands and something will drop with a dull reverberating thud when the polls close today.

LEVISON BUSY.

Billy Levison was so busy yesterday that he had nothing but a nod for his most intimate friends. He was occupied in marshaling the foreign hosts on the west side and giving them instructions for today. He drove around town in a phaeton and paid frequent visits to the court house, accompanied by men who were initiated into the mystery of registration. By some means many a certificate of registration found its way into Billy's pocket and he soon had sixty or seventy of them in his possession. He will probably vote their owners early this morning, but where no one but Billy, and possibly Mollie, knows. That they will be voted where they will do the most good (to the Triangle) there is no doubt. The quadrangle before referred to will get a solid floater vote, or Billy will know the reason why.

A very significant thing was the action of the Iroquois club last Thursday night in indorsing the nominees of the ward clubs for delegates to the county convention. The motion was made by J. D. Jones and was carried by a big majority. The object of Boss Goucher and his satellites, who run the Iroquois club, was to throw the moral (?) weight of the club against the anti-Democrats in the First ward. At the same time the club indorsed the nominees in the Fifth ward, among whom is that choice citizen, Dan Maloney, Mollie's cup-bearer, and Fred Collins, another parson of the Maloney stripe. What the decent Democrats think of the Iroquois' indorsement of Maloney, Levison & Co. has not been stated. Perhaps they prefer to have their votes talk for them.

THE WORLD'S FAIR.

A Suggestion From a Scandinavian Colony Man.

EDITOR REPUBLICAN.—Permit me the use of your columns to call the attention of our county World's Fair commission to the fact that the exhibition of our wild beasts and birds in our display would certainly prove a great attraction to visitors. If the animals could be alive, so much the better, but as this involves both trouble and expense, stuffed specimens would answer the purpose very well.

Prof. Heaton of the high school is in possession of many fine specimens, so are other private individuals, and I have no doubt that they would be willing to lend the county their treasure with the guarantee of a safe return. If it were known to hunters that the skins of birds or beasts were wanted to be stuffed for the fair, many would probably take pleasure in supplying the demand.

In addition to this we ought to secure fine photographic views of the Kings river canyon and send them to Chicago, or, better still, have fine oil paintings executed from them. If this exceed the means of the public fund, private individuals should secure such treasures for themselves and loan them to the county. I am acquainted with one of the finest landscape painters of the United states, and am confident that I could induce him to paint for the county or any private party fine oil paintings, say 2x3 feet for $100 each. I guarantee that these pictures would be perfect gems of art, having seen many beautiful specimens of his genius in the east.

THE RETAIL MARKET.

No Turkeys to be Had and Broilers are Dear.

Cherries have just come into the Fresno market. The black Tartarians are selling for 40 cents per pound and the white cherries are selling for 50 cents. Even at this rate the supply is far short of the demand and as a general thing the fruit stores are cleaned out of their stock in twenty-four hours.

Not a turkey, alive or dead, could be found in the Fresno market yesterday and even chickens were scarce. The reason for this dearth is that the turkeys are now sitting on eggs, and consequently their owners will not sell until the coming broods are able to take care of themselves.

Dressed hens find a ready sale at 60 cents each. Poultry will not be plentiful until after the weaning season is over. Then the vineyards dispose of their breeding stock, because hens and roosters have an insatiable appetite for young grapes and they are almost as destructive as hogs in vineyards.

Broilers are readily sold at 87½ cents each and there are not enough in the market now to supply the demands of Fresno epicures.

The Polling Places.

In the First ward the polls will be held on the corner of M and Merced streets.

In the Second ward, on the corner of M and Tulare streets.

In the Third ward, at the city hall.

In the Fourth ward, at Ah Hall's office on Tulare street.

In the Fifth ward, at Curd's warehouse.

In the Sixth ward, at Bragg's store on F street.

Card From A. M. Clark.

To the Democrats of the First Ward—

At a meeting held at the court house on the night of the 30th ultimo, by what purported to be Democrats of the First Ward who were opposed to the nominations made by the Democratic club in said ward, my name was placed on a ticket as a candidate for delegate to the County Convention. I desire to state that I was never consulted about this matter, and that I never authorized anyone to use my name as a candidate, and that I decline to run on said ticket. I believe in the formation of ward clubs as the most effective and legitimate method of party organization, and am a member of the Democratic club of the First Ward, and indorse the ticket nominated by the club of said ward as candidates for delegates to the County Convention and shall give that ticket my hearty support at the primaries. I decline to run as a delegate on the opposition ticket, and do not indorse the methods or motives of said opposition. A. M. CLARK.

HAPPENINGS IN VISALIA.

Three Tickets in the Field at the Primaries Today.

Special Correspondence of The Republican.

VISALIA, May 6.—Charles Wett, the young man who was shot here a few days ago by Saloon Keeper Schmid, was in a critical condition last night and it is doubtful whether he will recover.

Schmid is still in jail pending the result of the wound.

It is expected that a good deal of wire pulling and machine work will be done here at the primaries tomorrow as there is considerable dissatisfaction over the result of the city election last Monday. The primaries will be held according to the Porter plan, and from all accounts the election will be hotly contested as the factions have their war paint on and mean business.

The defeat of Fox and Gilliam at the city election has caused lots of illfeeling in the Democratic camp and the friends of the defeated candidates are hunting for revenge. They intend to make the opposition do some tall hustling tomorrow.

There will be three tickets in the field and a good prospect for a fourth. The workers recognize the fact that it will be a hard battle and they are rolling up their sleeves and laying plans for tomorrow's campaign.

Whichever faction wins will not have a walkover as those interested in the success of their respective tickets will make a good fight and die hard.

There has been a great deal of button-holing going on and the connubiators have adopted the motto "we never sleep."

THE UNITY SOCIETY.

Gives a Well Attended Social at the Barton.

The regular monthly social of the Unity society at the Barton hall last night was a more than usually enjoyable one.

An entertaining program was given in the early part of the evening. J. G. Willis played a cornet solo in excellent style and was followed by Miss Cora Maxwell, who recited.

A Dutch song by Muriel and Ralph Swain was very good, and the way Mrs. Souther sang a French laughing song aroused the risibility of the audience.

The Hungarian tambourine dance, danced by a number of boys and girls in costume, was the most enjoyed number on the program. The children showed excellent training.

The remainder of the evening was spent in dancing. Refreshments were served.

A DIVORCE SUIT

Transferred From Los Angeles County to Fresno.

In the superior court yesterday there was filed the divorce suit of Grace E. Greene against Lelan O. Green. The suit was originally brought in Los Angeles county, but was transferred to this.

The plaintiff alleges she married Green on October 31, 1890, and for cause of complaint states that the defendant has failed to provide for her and deserted her.

She asks for $50 per month alimony and to be permitted to resume her maiden name of Grace E. Haven. George E. Church is attorney for plaintiff.

HABEAS CORPUS CASE

STEPHENSON IS SENT BACK TO JAIL.

His Refusal to Pay His Wife Alimony the Cause of His Trouble.

In Judge Holmes' court yesterday afternoon the habeas corpus matter of W. M. Stephenson came up for a hearing.

Stephenson is defendant in a divorce suit and was some time ago ordered by Judge Harris to pay his wife the sum of $30 a month alimony and $75 for attorney's fee, pending the suit.

Stephenson failed to do this, and was later on cited to appear in court and show cause why he should not be committed for contempt. Stephenson came into court and testified that he could not pay the sums he was ordered to because he had not the means.

He acknowledged having received large sums of money for his mill property, ranch and stock, but could only account for a small part of it. The court was satisfied that he could pay and ordered him to do so or take the alternative of going to jail. Stephenson still refused to disgorge and was put under arrest.

His attorney, W. J. Tinnin, applied for a writ of habeas corpus, which was granted and made returnable before Judge Holmes.

After somewhat lengthy argument, Judge Holmes remanded Stephenson to the custody of the sheriff.

Stephenson's troubles seem only to have begun, for yesterday J. O. Deuel filed a criminal complaint in Justice Crichton's court charging him with perjury.

Deuel in his complaint alleges that Stephenson in his petition for a writ of habeas corpus swore to certain alleged reasons why it should be granted, all of which Deuel says were false and made with the intention of deceiving Judge Holmes, in order to evade the decree of Judge Harris and to delay, hinder and defraud his wife, Birdenia Stephenson, from collecting alimony and attorney's fees.

It is stated that other complaints will follow this one.

INDUSTRIAL DRAWING.

Work by the Public School Pupils on Exhibition.

There was a large attendance yesterday at the various schools in this city of parents and others who had come in answer to the invitation to examine the exhibits of the work of the pupils in industrial drawing.

The visitors were very much interested in what they saw and had nothing but praise for the children. While drawing has been taught in the schools for some years, it has only been made a specialty the past two years.

All the drawing is free hand, and is useful in that it trains the eye and gives the children a better control of the hand. There is no study the pupils seem to like better and the progress made in the various grades since last year is pronounced.

LEMONS.

They Are Good Things for Fresnoites to Squeeze.

AN ENORMOUS YIELD PER ACRE

From $750, the Lowest Gross product Per Acre, to $3000 Per Acre for the Choicest.

EDITOR REPUBLICAN.—Mr. Garcelon of Riverside, in a recent letter to the writer, stated, "I have about 300 lemon trees, mostly Lisbon, and have gathered as high as 300 boxes per acre, for which I have received from $3 to $10 a box."

Hon. N. W. Blanchard of Santa Paula, in a recent letter to me, stated that from his trees in full bearing he usually gathered from three to four boxes to the tree.

These two gentlemen are the most noted producers of lemons in the state.

Mr. Prettyman of Porterville, in a recent letter to me, stated that he had six 13-year-old trees in bearing, the average was about 2400 lemons per year. Counting 300 lemons to the box the yield would be eight and one third boxes to the tree.

Messrs. J. W. C. Pogue & Son of Lime Kiln, in a recent letter to me, stated that they have a 12-year-old lemon tree that has been moved twice, "and four years ago all the top was lopped off for the purpose of moving it, which yielded $16 for lemons sold at $3 50 per box." This tree yielded a little more than four and one-half boxes. He also states, "My 5-year-old trees averaged about three boxes."

Messrs. Williams brothers, three miles northwest of Reedley, planted two trees, in 1887 and in 1889, one of the trees yielded 600 lemons, equal to two boxes, and the other yielded 960 lemons, equal to more than three boxes. He sold them at 35 cents a dozen, and received $28 revenue from the best tree.

A. J. Williams has two lemon trees, six miles northeast of Reedley, planted in 1889, which yielded in 1891 more than six dozen lemons each.

CLIMATIC CONDITIONS.

Mr. Garcelon, in his letter, states, "My lemon trees were hurt and my crop partly destroyed on December 25, 1891. Have been here nearly twenty years and this is the first time anything so severe has occurred."

Mr. Blanchard of Santa Paula, said none of his trees were killed by frost last winter.

Mr. Prettyman of Porterville, said there was "no injury from frost whatever," to his lemons; and, in speaking of his trees, he said, "the most tender tips of the latest growth were not injured."

Mr. Williams' lime trees, the most tender of all, show no signs of frost.

THE MARKET.

Mr. Garcelon of Riverside said: "I have received from $3 to $10 per box. As regards price I have received for lemons, I will further state that the industry involving the proper curing of lemons being yet in its infancy, not until the greater part of the lemon crop of California receives the proper attention in preparing for market, as well as means for transportation improved, can we expect a fair uniform price. The $10 per box was an exceptionally high price. I think we can depend upon from $3 to $5 per box as an average one."

Mr. Blanchard of Santa Paula states that he has received from $2 50 to $4.75 a box, and that "much experience is required for best results."

Mr. Garcelon and Mr. Blanchard have large dark, cool rooms of uniform temperature, in which they can keep their lemons until the fruit, the season, and the market suits them.

Mr. Prettyman of Porterville, states that he received 25 cents a dozen for his lemons, which would be about $6 a box.

Pogue & Sons of Lime Kiln say they received $3.50 a box. Messrs. Williams Brothers of Reedley state that they received 35 cents a dozen, which would be at the rate of $8.75 per box.

INSECT PESTS.

In the southern part of the state bugs have blasted, for the time being, the fond anticipations of many, but Professor Koebles has recently shipped other bugs from New Zealand and Australia that feed on the southern pests, and they will soon fight the battle of the southern fruit growers.

Fortunately our thermal belt seems to be too hot for those bugs, and our lemons, limes and orange trees are free from all pests.

WHERE TO PLANT.

Where your gardens bloom all winter plant your trees and keep the ground about as moist as you would for strawberries. Plant either the Villa Franca or the Eureka. Riverside's best showing from old Lisbon trees is 300 boxes to the acre. Counting 100 trees to the acre the yield would be three boxes to the tree.

Santa Paula's full bearing Eureka trees yield from three to four boxes to the tree.

Porterville's Villa Franca trees, owned by Mr. Prettyman, averaged more than eight boxes to the tree.

Reedley's Eureka trees, 3 years from planting, averaged two and one-half boxes to the tree.

The reader has the best data that the writer could obtain from each locality, and he can readily determine in which thermal belt he desires to plant his trees. The paper says our thermal belt got away with the premium for exhibiting the finest lemons at the Los Angeles citrus fair. Oranges do equally well.

RAISIN SELLING.

ROSEBERRY JUNE RISES WITH SUGGESTIONS.

Something Which Raisin Growers May Find of Interest to Ponder Over.

EDITOR REPUBLICAN—Your article in THE REPUBLICAN on the raisin market the other day, to the effect that the packers are united, ready and willing to join the growers in co-operating with them so as to obtain good prices by the plan of ceasing to be in the market as buyers, but instead act simply as packers and commission men, etc., for the grower at an agreed percentage as pay for such services, is a subject which under existing circumstances is worthy of the most serious consideration on the part of the growers who are not members of the co-operative packing companies. Even the co-operative concerns should take action in this matter, as it involves even their interest in this, that if the growers and packers unite there should be no competition between those so united and the co-operative packing companies in the distribution and sale of this year's raisin crop, but a definite, agreed, understanding between all how, when and where the raisins are to be shipped. Committees from all concerns packing and shipping raisins should meet and confer together and establish grades and prices upon the raisins before leaving California and notify, as your article says, eastern buyers, who then will be ready and willing to buy at such prices.

I will add that no buyer should be allowed at any time to obtain any raisins cheaper than the set price, or than other buyers, which, of course, should be reasonable, otherwise such prices would be a stumbling block in the way of a ready sale of the crop.

Last season, being one of a committee of fifteen fruit and raisin men appointed by a meeting at the Hughes hotel to confer with the packers upon the subject of forming a union or formulate and work upon some plan which would be a benefit and protection both to growers and packers, I read a plan at the meeting of the committee, a plan which, if it had been adopted and carried out, all would have made money out of their raisins and fruit, and we would now have been ready to go on in the same line this season, perhaps adding some improvements when and wherever it was found necessary.

But as none of the packers, except a couple of growers, who packed their own raisins also, attended the meeting the plan was not reported to the general mass meeting. This plan I have yet in my possession, but as it goes greatly into the details of the business and being lengthy I feel that I would be intruding upon your valuable space in presenting it for publication.

Personally, my first choice is that the growers themselves should organize a strong union or trust, grade, pack, ship and market their own products, but, as it appears from their action, that they are not yet ready for such a measure. I would join any grower's association who are willing to meet the packers once more and see if we can be united and harmonize our interests. I am very hopeful that it can be done this year, as last year's experience has taught both growers and packers the absolute necessity of doing something or go down together.

Let some one call a meeting and thus set the ball rolling, and keep it rolling until victory over adverse circumstances is accomplished, thereby save our industry and make us all prosperous.

HOLY MOSES.

A Fresno Saloon Keeper Pays for Good Advice.

Several saloon keepers of this city have received a printed circular of which the following is a copy:

Confidential to saloon keepers.

Holy Moses Book company, publishers and dealers in rare and suppressed literature, Denver, Col. Reference: Wells, Fargo & Co.'s express.

Dear Sir: We have on hand a limited number of copies of a work which for some time has been the subject of very animated discussion in certain circles of society. It is a book which parents should not permit their children to read.

We are now quietly disposing of those books to those who will appreciate them, and to whom the work will prove a constant source of interest. To become deeply interested in this rare work, it is not necessary to read the entire work at once, as it is written in short chapters, every one of which possesses its own complete and peculiar significance.

A Denver saloon keeper, who got hold of a copy of this book, was so impressed with the extraordinary character of the work that he attached a chain to it and hung it in a conspicuous place in his barroom. It was not long before a group of patrons were gathered around it, reading and discussing its contents with eager interest. Others were attracted by the wonderful stories told of its character, and the saloon keeper's patronage increased at a rapid rate. This circumstance led us to believe that we could dispose of our entire edition by placing a copy of the work in the hands of every saloon keeper in every town in the United States, with a hint to him that he might profit by following the example of the Denver liquor dealer.

You are, therefore, the only saloon keeper in your town to whom this offer has been made, and in case you order one of these books at once we promise to make no effort to place it in the hands of any other saloon keeper in the same place, though we shall make the offer to some one else if it is not accepted by you.

This is a book of 200 pages, printed in clear type, neatly and substantially bound, and we will send it to your address, securely sealed, with chain attached, ready to hang up in your place, upon receipt of $1.50.

You will readily perceive the advantage of having this book prominently displayed in your saloon, not only in an increase of customers, but also in keeping them interested a sufficient length of time to call for several rounds at one visit, instead of following the usual custom, which is to "take a drink and run." Besides, when it becomes known that you have this book, the most prominent people in the town will visit you under the pretense of getting a drink, but in reality to see the book, of which they have heard so much.

Trusting that you will send in your order at once and secure a copy of this remarkable work, we are, very truly yours, HOLY MOSES BOOK CO., Denver, Col.

P.S.—This book will pay for itself the first day in your place.

A saloon keeper who forwarded $1.50 received a paper covered copy of the Ten Commandments, together with some good advice and a tin chain. It was not what he expected, and if anyone wants a fight on his hands he may be accommodated by asking for the Holy Moses book.

The Season of Mushrooms.

That delicious fungus growth scientifically called by a big and strange name, but commonly known as the mushroom, is just beginning to come plentifully into the local markets, and they are prepared to stay till late into the fall.

Those which are found in the vegetable stalls in Washington market are of artificial culture and are now selling at about seventy-five cents a pound. A month ago they brought $1.35 a pound, and a month hence fifty cents or even less will buy a goodly supply of the nutritious and delicious white stemmed and brown topped fungi.

Said the ruddy faced and white aproned marketman to me today between the puffs of his perfecto:

"Yes, I sell a good many mushrooms, especially during Lent. Those that come in now are raised in hothouses in beds underneath the plant shelves and they come pretty high, although they are getting down in price lately. I have sold them as high as three dollars a pound. Later on in the spring we get them from the farmers and others who raise them in their cellars, in shaded places and even in caves, and during warm weather men and women and boys and girls who gather them in fields and pastures bring them in to the city. Then we sell them for almost nothing—as low as ten cents a pound sometimes. Most of our customers who buy mushrooms are people of means, and although we sell great quantities of them, the people as a whole don't seem to appreciate and understand them, as I should think they would."

The jolly marketman is right, for mushrooms are not appreciated as they should be. Many people have eaten mushrooms only when the canned article has been served sprinkled sparingly over a steak. There is a vast difference between the canned mushroom and the crisp, fresh and appetizing fungus that one can now buy in any of the large markets.—New York Telegram.

How It Is Done in China.

Though the Chinese diplomatist moves slowly, there are some Chinese mandarins whose ways are expeditious and summary. Under the auspices of Chang Chih-tung foreign engineers are prospecting in the neighborhood of Hankow. They were commended the other day by the viceroy to the care and protection of a minor mandarin. This personage, rooted in the traditions of the past, viewed the advent of the "Fauqui" with disapproval.

He penned a remonstrance, setting forth that it would be unsafe to allow the earth dragon, who has lain undisturbed since the time of Confucius, to be profanely tampered with. The country folk, he explained, were a rough set, who, on seeing strange men with strange instruments in their hands probing and peering into the earth, would be sure to be roused to mischief, and as he professed himself powerless to restrain the riot that might ensue, he prayed his excellency to reconsider the matter.

The viceroy took in the situation at a glance. He wrote in reply to say that, inasmuch as the local official did not seem equal to cope with the situation, he was sending five deputies, with boats and followers, to afford the foreigners safe and suitable escort—all at the expense of the remonstrant. Their visit is said to have cost the worthy magistrate some £750, and since then Chang Chih-tung has not been troubled with any more remonstrance from the zealous defender of the earth dragon.—Manchester (England) Examiner.

PLEASURES OF MEMORY.

What a blessed thing is memory! How it brings up the pleasures of the past, and hides its unpleasantnesses! You recall your childhood days, do you not, and wish they would return? You remember the pleasant associations, while the unpleasant ones are forgotten. Perhaps to your mind comes the face of some friend. It was once a pale, lean face. It showed marks of pain, lines of care. It seemed to be looking into the hereafter, the unknown future. And then you recalled how it brightened, how it recovered its rosy hue, how it became a picture of happiness and joy. Do you remember these things? Many people do, and gladly tell how the health returned, how happiness came back, how the world seemed bright. They tell how they were once weak, nerveless, perhaps in pain, certainly unhappy. They tell of sleepless nights, restless days, untouched food, unstrung nerves. And then they tell how they became happy, healthy and strong once more. You have heard it often in the past, have you not? You have heard people describe how they were cured and kept in health? You certainly can remember what it is that has so helped people in America. If not, listen to what Mrs. Annie Jenness-Miller, who is known universally as the great dress reformer, says: "Six years ago, when suffering from mental care and overwork, I received the most pronounced benefit from the use of that great medicine, Warner's Safe Cure." Ah! now you remember. Now you recall how many people you have heard say this same thing. Now you recollect how much you have heard of this great Cure. Now you are ready to admit that memory is usually pleasing, that the highest pleasure comes from perfect health, and that this great remedy has done more to produce and prolong health than any other discovery ever known in the entire history of the whole world.

A Bay'n Climate Trouble.

SAN DIEGO, May 6.—The suit brought by Sheriff Falks against County Treasurer Dauer and A. E. Cochran, whom he charges with having prepared a list of jurors and requested their impanelment to try a case in which Dauer was interested, continues to be the leading theme of conversation, chiefly because of the effect it may have on the political prospects of Dauer. The case will come up for trial on Saturday.

In their answer to the complaint it appears that Dauer admits having prepared the list, as alleged, but with perfectly proper intentions, but Cochran, who is Dauer's attorney, had nothing to do with its preparation. It is generally believed that a jury will entirely exonerate both defendants.

THE BEAUTIFUL TROTTING STALLION

BAY PRINCE

And NOELL will make the season of 1892 at the City Stables, corner Merced and H streets, every Wednesday, Thursday, Friday and Saturday.

Terms $25, payable 1st of July, cash or note. Mares not proving with foal can be returned next season free of charge, provided they have been taken care of and same man owns them.

PEDIGREE.

Bay Prince weighs 1195 pounds, is 6 years old, and was got by Bay Rose (record 2.20½), he by Sultan (2.24), sire of Stamboul (2.11), Ruby (2.19¾) and 15 others with records of 2.20 and better. First dam, Madame Baldwin, by the Moor; second dam by Ben Lippincott, by Belmont. Pasha, full brother to Bay Rose (record 2.86). Sultan, by the Moor, sire of Beautiful Bells, dam of Hinda Rose (2.19½), and Sable, dam of Sable Wilkes, 3-year-old record 2.18. First dam, Sultana, by Delmonico, sire of Derby (2.16), by Guy Miller, sire of Whipple's Hambletonian; second dam, Nambrino Chief; third dam by Downing's Bay Messenger; fourth dam, Miss Candle, dam of Ericson, 4 year-old-record 2.30½.

The dam of Bay Prince was by Algona, owned by Carr & Haggin.

Bay Prince appeared on the track for the short period of three weeks. He trotted close to 3.00 at the Fresno Fair Grounds in the fall of 1888, coming in second in the first heat.

He will be handled in a careful manner and due care taken to prevent accidents, but no liability assumed should any occur.

Season commences March 1 and ends July 4, 1892. GEORGE COLLINS, Owner.

Imported Cleveland Bay Stallion,

DUKE OF EDINBURGH.

One of the finest forms of English Coach Horse ever imported to the State of California

Pedigree.

Duke of Edinburgh is a fine specimen of the English coach horse, bred by George Holmes, Bar House, Beverly, Yorkshire, England, and sold to J. and T. Irving, who imported him to Canada. He is a beautiful dapple bay, with black points, with clean, flat limbs, entirely free from blemish, and has splendid action; sired by the Cleveland Bay stallion, Whalebone, who won the first prize at the horse show held at Harrowgate in 1873, open to all England; his dam is by Stonewall Jackson; she was sold for 400 guineas to go to Australia; grd by old Barnaby, by Marquis of Roseberry; gr g d by old Forester; gr g g d by old Lord John; gr g g g dam by Prince of Wales, winner of the first prize at Islington Show, London; this being the best Cleveland blood in the world.

DUKE OF EDINBURGH PRIZES—Showed twelve times and was awarded ten first prizes and two second; at 2 years old took first prize at Dundas and Winchester county fairs for best horse of any age, competing against ten older horses, and took the first prize at the same fairs the following three years; took first prize and silver medal at the Provincial Exhibition at Kingston in 1882; second at Guelph, 1883, first at Toronto Industrial Exhibition, open to all the world; also silver medal and diploma for the sweepstakes for the best horse of any age or breed; second at Fresno, 1891, for best Cleveland Bay stallion with family.

This fine horse will make the season, commencing March 1, 1892, and ending July 1, 1892, as follows: Mondays at J. Barkley's, near Monroe school house; Tuesdays and Wednesdays at Cox's stable, Selma; Fridays and Saturdays at home.

Terms.

Notice of Dissolution of Partnership.

NOTICE IS HEREBY GIVEN THAT THE partnership heretofore existing between T. J. Kirk and A. D. Olney, under the firm name of Kirk & Olney, is this day dissolved by mutual consent.

T. J. Kirk has sold his interest in the shoe store of the firm, on Mariposa street, Fresno, to John Jonson and the business will be continued under the firm name of Olney & Jonson.

The new firm will collect all bills outstanding in favor of the old firm, and will assume all contracts, debts or other obligations entered into by the old firm.

Signed, THOS. J. KIRK. A. D. OLNEY.

Fresno, Cal., April 28, 1892.

John Jonson, who has been well known to the people of Fresno during the last fourteen years, and who, during several years of that time, was associated in the shoe business with T. J. Kirk, under the firm name of Jonson & Kirk, has this day formed a copartnership with A. D. Olney, of the old firm of Kirk & Olney, to continue business at the old stand, 1837 Mariposa street, under the firm name of Olney & Jonson. Thanking the public for their past liberal patronage, they solicit a continuance of the same.

A. D. OLNEY. JOHN JONSEN.
